Net entitlement is the share of production available for sale by Tethys Oil and is calculated monthly in accordance with the terms of the Exploration and Production Sharing Agreement (EPSA) for Blocks 3&4. The net entitlement will vary depending upon the level of production, oil price and recoverable costs incurred during the period. For further explanation of the calculation of net entitlement, see Tethys Oil's annual report for 2022.

The oil sales of 383,004 barrels in the fourth quarter 2023 reflects the October, November, and December lifting nominations. Consequently, the fourth quarter 2023 Achieved oil price reflects the Official Selling Price ("OSP") of October to December 2023. Average Official Selling Price in that same period was USD 89.7 per barrel.

Tethys Oil's interim report for the fourth quarter and year-end report 2023 will be published on 6 February 2024 at approximately 7:30 CET.
